# THE FUTURE OF OUR WORK

United Way of Anchorage has been an enduring force in changing lives and creating a positive impact in our community for over 65 years. Our community of partners, supporters, and advocates are more committed than ever to work with us on long-term solutions to build a stronger Anchorage.

## **Community Impact Fund and Strategic Agenda**

United Way of Anchorage is creating a strategic roadmap for the next phase of our work informed by voices from the community. By investing in the Community Impact Fund, we'll bring lasting changes for our friends and neighbors in critical areas across education, health and financial stability.

## **Educational support from cradle to career**

We're partnering with the Anchorage School District on their next phase of educational support and curriculum that will ensure all graduates are prepared for fulfilling careers, college and whatever life brings next. Investments in education

at United Way ensure we bring the right partners to the table and raise up all students to be Anchorage's next successful generation.

## **Expanding housing access solutions**

With your help, we're building on the demonstrated success of supportive housing access. By combining stable housing with robust, wrap-around services tailored to each person's individual needs, supportive housing programs can put clients on a stable, sustainable path to improving their lives. Additional funding helps us build capacity for these coordinated housing programs and innovate for the next phase of solutions.

## **Alaska 211 expansion and modernization**

Accurate referrals to available resources is the heart of the 211 service. After an extensive and detailed audit of the database, United Way of Anchorage has identified areas of investment that will revamp and improve the quality of referrals for Alaskans in need of help.
