

High attendance is the foundation for success in school.

Missing two or more days a month can put a student behind. It can even affect the whole class because a teacher may need to slow down for a student who is chronically absent.

High Attendance leads to:

- Better Grades
- Stronger Connection to School
- Better Work Habits
- Higher Graduation Rates

When more students have their high school diploma:

- We have a better prepared workforce.
- They have a foundation for future success.
 - Our economy benefits.
